

# ARDEX WPM 1000 RR

## WELDTEC ROOT REPELL MEMBRANE

ARDEX WPM 1000 RR is a high-performance, single-ply waterproofing membrane designed for use in areas susceptible to root damage. The membrane contains a premium root inhibitor that repels root growth without killing the root. It is designed primarily for areas covered with, or exposed to soil and plants. Once installed, ARDEX WPM 1000 RR will remain a permanently flexible waterproof lining and bond to most building surfaces.

### Benefits

- Contains a root inhibitor to prevent damage from root penetration
- Manufactured in New Zealand
- Welded application for strong, consistent waterproofing membrane
- Fleece-lined for greater adhesion
- Thin and consistent membrane thickness
- Excellent flexibility - no requirement for fillet or bond breakers
- Excellent resistance to tearing, cracking, bubbling, and absorption
- Suitable for planter boxes, retaining walls, green roofs

### Substrates

- Concrete
- Plywood
- CFC Sheet
- Timber
- Concrete

### Size

Roll of 1.4m x 20m x 1mm

### Use

In areas exposed to plants and the membrane or building may be susceptible to damage from roots, such as:

- Green/living roofs
- Planter boxes
- Retaining walls
- Building foundations

### Packaging

Roll

### Code

24578
